Simple lines. Sophisticated cats.

A coloring book for people who love clean lines and quiet design. Forty minimalist cats — sleeping, stretching, prowling, peeking out of paper bags, wearing scarves — rendered in crisp black line art on a pure white page.

No busy backgrounds. No clutter, no tiny fiddly spaces. Just sleek feline forms and plenty of white space, ready for colored pencils, gel pens, or fine-tip markers.

- 40 unique designs — one cat per page, from a geometric cat head to a mother cat and kitten
- One-sided printing — a blank page backs every design, so colors never ghost through to the next piece
- Large 8.5 × 11 pages — finished designs slip straight into standard letter-size frames
- For adults, teens, and anyone who colors to unwind
